

The K-Love radio signal is the only one I have listened to in the last year due to its positive and uplifting format. I find that I am encouraged when I listen to this radio station. Many of my friends and business associates also listen and would be dismayed if this format were to be replaced with other programming. This station supports wholesome values across America. When I travel, I often can find the same signal in another area of the country or on line. I truly enjoy this radio station. Please keep it on the air.
